

# LOOKING FOR A TROUBLE-FREE TINTING SOLUTION?

## Blendorama Series III Automatic Dispenser

Engineered to produce high quality and trouble-free tinting – Blendorama III is packed with the goodness of our proven X-SMART design. This automatic dispenser offers internet connectivity and software integration for high throughput, peak performance, and reduced total cost of ownership.

### Proven technology

Built with patented piston pump technology for high performance

### Optimum capacity

Canister size ideal for daily tinting volumes and sustainable business expansion

### Low maintenance

Active nozzle closure eliminates leakage and tubeless design prevents rodent damage

### Future ready

Monitor operations remotely with the flexibility of internet connectivity and reliable results

### Low footprint

Compact and lightweight tabletop machine that can be placed even on a mixer

### Branding opportunities

Add value with 360-degree branding exposure with ergonomic design and modern aesthetics

## Your perfect tinting solution
