THE ULTIMATE TINTING MACHINE

X-PROTINT XL
Automatic Dispenser

Want to expand your color portfolio? Then, switch to X-PROTINT XL — the ultimate tinting machine. This automatic sequential dispenser, ideal for universal, solvent, and water-based colorants can handle peak volumes with reliable performance. X-PROTINT XL delivers incredible reproducible tinting output making itself a valuable investment for you to scale operations.

Simple operations
Easy to install, operate, and service — do away with operational training

Mobile Tinting
Easy control powered by PrismaPro2 software and compatible with mobile dispensing app PrismaRT

Ready-to-use
No assembly is required. Unpack and press it into use straightaway

Proven Technology
Built on proven piston pump and AutoDrive™ technologies for ultimate reliability

Compact size
Minimizes transport costs and can fit into any small or mid-level size outlet

Uninterrupted power backup
Day-long power backup through UPS and built-in protection against power surges

X-PROTINT XL

Specifications & Technical Data

General

- Automatic sequential
- Universal and water-based colorants
- Bi-directional turntable

Canister

- Patented optimal stirrer design
- Up to 32 canisters
- Flexibility to choose your preferred canister configuration

24 Canisters Variant-
Max 9x1,3 L + 12x2,3 L + 3x4,6 L

32 Canisters Variant-
Max 16x1,3 L + 16x2,3 L

### Nozzle

- Airtight, integrated nozzle closures
- Nozzle cleaning system with passive brush

UPS specifications

- Load capacity of 660Watts/1100VA
- Single output
- Surge protection
- Average 50 dispensers* per day

* Only dispenser to be connected over UPS and mobile tinting, no other load on UPS

Pump

- Piston pump
- 43 ml piston pump
- Flow rate 0.5 l/min
- 0.007 ml smallest dispense

Can table

- Manual can shelf
- Optical can sensor
- Loading height 25 cm

Dimension and weight

- Net HWD - 123x82x87 cm
- Net weight 135 kg (24C) / 139 kg (32C)

Maintenance and operations

- Low level (only purge and brush clean)
- Ease of use
- Minimal operator training
- Robust design
- Dust and rodent proof
- Flood resistant up to 40 cm
- Low TCO

Software

- Easy to use desktop application PrimsaPro2
- Local language compatible
- PrismaRT mobile app compatible

Power supply

- 110V/230V +/- 10%, 50Hz/60Hz

Inbuilt Safety Features

X-PROTINT XL automatically reduces the turntable speed when the door is open ensuring operator safety
