

COMPACT DISPENSER. COMPLETE PERFORMANCE.

Get the lowest TCO in the segment.
Available in Decorative and Solvent variants.

X-SMART M Automatic Dispenser

X-SMART M is ideal for your businesses with low tinting volume. A modular version of the highly acclaimed X-SMART automatic dispenser series with smaller canisters, it has a robust design, built with our patented piston pump technology and identical features to deliver seamless color performance.

Its tubeless design reduces wastage, making it a cost-effective, cutting-edge dispenser with low maintenance and operational simplicity for reduced capacity.

Wrap not included in standard offering

Robust design

Built with patented piston pump technology

Easy installation

Compact design allows hassle-free assembly in minutes

Operator-friendly

Safety features to ensure smooth operation

Low footprint

Low footprint with less weight to fit into any paint shop

Low maintenance

Active nozzle closure prevents paint build-up and blockage

Low power consumption

Built-in power backup with UPS/Battery backup support helps increase footprint in places with frequent power outages
