

# COMPACT DISPENSER. COMPLETE PERFORMANCE.

Get the lowest TCO in the segment.  
Available in Decorative and Solvent variants.

## X-SMART M Automatic Dispenser

X-SMART M is ideal for your businesses with low tinting volume. A modular version of the highly acclaimed X-SMART automatic dispenser series with smaller canisters, it has a robust design, built with our patented piston pump technology and identical features to deliver seamless color performance.

Its tubeless design reduces wastage, making it a cost-effective, cutting-edge dispenser with low maintenance and operational simplicity for reduced capacity.

Wrap not included in standard offering

### Robust design

Built with patented piston pump technology

### Easy installation

Compact design allows hassle-free assembly in minutes

### Operator-friendly

Safety features to ensure smooth operation

### Low footprint

Low footprint with less weight to fit into any paint shop

### Low maintenance

Active nozzle closure prevents paint build-up and blockage

### Low power consumption

Built-in power backup with UPS/Battery backup support helps increase footprint in places with frequent power outages

# X-SMART M

Click-in canisters with ergonomic design to eliminate leakage and rodent damage

## Specifications and technical data

- Piston pump technology
- 16 PP/POM canisters of 1.5-l each
- Flow rate up to 0.25 l/min
- 0.077 ml smallest dispensing amount
- Tubeless design
- Active nozzle closure

## General

- Automatic sequential
- Universal, water-based colorants
- Solvent compatible

## Canisters

- Material: Polymeric (PP) and POM
- Size: 1.5 l

## Can table

- Manual shelf
- Dimensions: 38 x 31 cm (WxD)
- Loading height: 26 cm
- Maximum can height: 48 cm
- Optical can sensor

## Nozzles

- Airtight, integrated nozzle closures
- Nozzle cleaning system: passive brush

## 360° Branding

- Customize for maximum brand exposure

## Pump

- Piston pump
- Size: 30 ml
- Flow rate: 0.25 l/min
- Minimum dispensing: 0.077 (1/384 fl. oz.)
- Nozzle diameter: 4 mm
- Polymeric needle valve
- Seals material: Viton and Viton Extreme
- Copied calibration; no recalibration required

## Dimension and weight

- Low footprint with less weight to fit into any paint shop
- HWD 115 x 83 x 83 cm
- Weight net: 55 kg

## Power supply and safety

- Low power consumption with UPS/Battery backup support
- 110V +/- 10%, 50Hz/60Hz
- 230V +/-

# Flexible and reliable control every time

- Monitor Keyboard arm
- Connection via USB
- Easy to use POS tinting software PrismaPro2
- Remote connection with PrismaRT Mobile App
- Compatible with IDD, PP, or third-party software
