# TINTING A CLICK AWAY

PrismaRT
Mobile Dispensing

PrismaRT is a cloud-based innovative mobile tinting application compatible with all our X-series dispensers. It brings the best of wireless technology with limited hardware investment need to provide computers and other accessories or set up servers doing away with complicated and time-consuming installation and configuration. PrismaRT also makes updating formulas at POS and retrieving dispense history data far easier. You can also view prices and taxes and print labels through Wi-Fi.

FAST&FLUID
● Ready

Standard Dispense	Own Formula Dispense
Manual Dispense	Dispense History
Maintenance	Customers

Low TCO
Effectively replace the pc and accessories, no licenses required

Time Saving
Easy plug and play installation, technicians can focus on preventive maintenance

Greater Efficiency
Easier and more efficient in updating formulas and exporting dispensed data from the cloud

Instant access and Quick Management
Instant access to latest software development and updates, and easy deployment to the whole fleet

Double Benefit
Twin apps designed for different purposes. PrismaRT serves as a mobile formula book app for POS / machine operator. PrismaRT Service helps technicians to update IDD Configuration and UIDD
