EXPERIENCE THE SMARTEST WAY OF DISPENSING WITH
X-SMART XL

Derived from our X-SERIES platform, the X-SMART XL is designed for simplicity in installation, operation, and service. Ensure consistent trouble-free tinting and expand your market — explore new POS channels and opportunities. Available in your choice of decorative and solvent canister configuration with up to 32 canisters — its compact size can fit into any small or mid-level size outlet. The compact packaging minimizes transport costs and can be assembled in minutes. The innovative modular design makes the X-SMART XL easy and cost-effective to maintain.

Simple and reliable
A trouble-free tinting solution that is affordable and easy to operate

Easy logistics
Small enough to fit into any outlet, it is easy to assemble and minimizes transport costs

2x faster
High speed and accurate performance with proven piston pump technology

Low maintenance
Purge and brush clean along with minimal operator training reduces total cost of ownership

Flexibility
Freedom to choose preferred decorative and solvent canister configuration

Future-ready
Compatible with Prisma-RT mobile app for remote and efficient tinting

X-SMART XL in the spotlight

Specifications and Technical Data

General
- Automatic sequential water-based, universal solvent-based (optional)
- Bi-directional turntable

Canister
- Upto 32 canisters Material: Polymeric (POM) Size: 16 x 2.3 L + 16 x 1.3 L
- Click-on-click-off
- Patented optimal stirrer design

Can table
- Manual can shelf
- Dimensions: 38 x 31 cm (W x D)
- Can loading height: 26 cm
- Max. can height: 48 cm
- Optical can sensor

Nozzle
- Airtight - Integrated nozzle closures
- Nozzle cleaning system: passive brush

Pump
- Piston pump Size: 43 ml
- Flow rate: 0.5 L/min
- Min. dispense: 0.077 ml (1/384 fl.oz.)
- Nozzle diameter: 4 mm
- Polymeric needle valve
- Seals material: Viton, Viton Extreme
- Calibration: 1st machine only.
- Subsequent machines copied calibration files. Calibration lasts machine lifetime

Dimension and weight

- Net HWD - 123 x 83 x 95 cm
- Net weight 73 Kg (32C),
  70 Kg (28C) / 65Kg (20C)
- Filling height: 120 cm

Maintenance and operations

- Low level (only purge and brush clean) Low TCO
- Ease of use
- Minimal operator training Visual LED error indicator

Software

- PrismaPro easy to use local language compatible
- Prisma-RT mobile app compatible

Power supply

- 110V/230V +/- 10%, 50Hz/60Hz
