

GX300

AUTOMATIC MIXER

EXCELLENT PERFORMANCE FOR MEDIUM AND HIGH VOLUME PAINT TURNOVER

- ✓ Intelligent Mixing
- ✓ Fast Clamping
- ✓ Faster Homogenization

The **GX300** is a very fast, high performance and intelligent automatic mixer. Its preset buttons, simple display, and user interface provide ease of operations that makes the life of the user easy. Its intelligent feature automatically secures maximum speed with pre-set mixing time.

The variable speed with the improved clamping speed and the dynamic balance offers a very reliable mixer. The GX300 is future-ready and can be connected to the PC of a paint dispenser enabling you to easily obtain a clear overview of machine status and usage.
