

VERSATILITY MEETS PRECISION

Versatility, precision, and configurability define the TI HARBIL platform. For decades, HARBIL has set the standard for reliable tinting solutions trusted world wide. Building on this proven foundation, the TI HARBIL platform is entering a new era of innovation.

Designed to adapt to your business, the TI HARBIL platform introduces a new generation of smart, flexible technologies. It supports growth with the FastPrecision System including PumpInPump technology and reduces maintenance with the EcoClean Brush empowering smoother, more efficient operations.

With its unique balance of precision engineering and flexible configuration option, the TI HARBIL platform enables businesses to achieve higher levels of accuracy, efficiency, and sustainability in every tinting workflow.

**Introducing the TI HARBIL platform,
where versatility meets precision.**

STANDARD KEY-BENEFITS

IMPROVED DESIGN & ERGONOMICS

A rotating top lid provides smart, space-efficient ergonomics and full flexibility for peripheral placement. Operators benefit from easier refill access and smoother daily workflows.

INTUITIVE OPERATOR DISPLAY

The upgraded touchscreen operator display guides users through every step of the tinting process. With clear visuals and simple instructions, it supports non-trained personnel and reduces the chance of operational mistakes.

FULLY AUTOMATIC SMART CAN TABLE

The smart can table positions cans automatically and adjusts to the correct height for each job. This streamlines workflow efficiency and ensures consistent dispensing throughout the day.

OPTIONAL KEY-BENEFITS

FAST PRECISION SYSTEM

Combining PumpInPump technology for speed with precision dosing, FastPrecision delivers high throughput without sacrificing accuracy no compromise needed.

ECOCLEAN BRUSH

The EcoClean brush keeps the nozzle area cleaner, supports reliable sample production, and reduces manual upkeep. Required with PumpInPump.

MAXIMIZE YOUR POTENTIAL WITH THE VERSASTILE TI HARBIL

- ✓ **Improved ergonomics** with a rotating top lid for easier refill access
- ✓ **Upgraded 10" operator display** designed for intuitive use by non-trained staff
- ✓ **Fully automatic smart can table** to streamline workflow and reduce handling
- ✓ **Optimized placement of monitor, keyboard, and peripherals** for a more efficient workstation
- ✓ **FastPrecision System** delivers high accuracy, including reliable sample dispensing
- ✓ **EcoClean Brush** supports cleaner operation, reduced waste, and lower operator effort
