

ELEVATING TINTING ESSENTIALS

Simplicity, affordability, and reliability define the X-Series. Recognized for its simple design, user-friendly operation, and low maintenance, it has set the standard in basic tinting.

Building on this legacy, the TI Element™ platform incorporates years of customer insights and innovation. It is designed to elevate tinting essentials for small and medium daily tinting operations, offering **new levels of simplicity, performance, reliability, and lower TCO.**

Introducing **TI ELEMENT 2S**, combining the proven technology of the TI ELEMENT 2 with the rugged armour-shell construction of the TI ELEMENT 4.

TI ELEMENT 2S

WHERE SIMPLICITY MEETS DURABILITY

SIMPLE & ROBUST

Built from the best of the TI ELEMENT platform, the TI ELEMENT 2S pairs trusted dispensing technology with a durable steel frame designed for everyday tinting environments.

ACCURATE & REPEATABLE TINTING

Precisely dispenses down to 0.050 ml (1/512th of a shot) for reliable color accuracy and consistent tinting results every time.

SHORTER DISPENSE CYCLE TIME

A bi-directional turntable and optimized dispense speed help reduce cycle times and improve productivity during busy periods.

ULTIMATE RELIABILITY

The ZeroPurge™ piston pump with AutoDrive™ technology provides continuous colorant recirculation and dependable performance, even when dispensing challenging colorants.

ULTRA-LOW MAINTENANCE

Self-serviceable features, easy canister removal and minimal maintenance requirements reduce downtime and lower service costs.

SMART & CONNECTED

Seamlessly connects with the Tintelligence application suite for intuitive dispensing, fleet visibility and faster service support.

MINIMIZE YOUR TCO LIKE NEVER BEFORE WITH TI ELEMENT 2S

- ✓ Simple operations requires minimal training and support
- ✓ Self-serviceable machine, requiring very few service visits
- ✓ Easily transportable and fits in any small-medium store
- ✓ Eliminate colorant wastage and mistints
- ✓ Easily manage peak hours and large can orders
- ✓ Keep spare inventory low with common parts
